

Press Release

14 January 2020

Shizen Energy Inc.

juwi Shizen Energy Inc.

juwi Shizen Energy Operation Inc.

Announcement on the development and commercial operations of new solar power plant in Ishikawa Prefecture ~First project completion with Tokyo Gas Group~

Shizen Energy Inc. (Representative Directors: Ken Isono, Kenji Kawado, Masaya Hasegawa, hereinafter Shizen Energy) and juwi Shizen Energy Inc. (Representative Directors: Jan Warzecha, hereinafter juwi Shizen Energy) has completed construction and started commercial operation of the Shika Town Inotani Chosuichi Solar Power Plant (2,589kW) and the Hakui City Shimbo Town Solar Power Plant (2,746kW) in Ishikawa Prefecture, as part of the project under Prominet Power Co., Ltd. (Representative Director: Nobuhiro Sugawara), a wholly-owned subsidiary of Tokyo Gas Co., Ltd. (Representative Director: Takashi Uchida, hereinafter Tokyo Gas).

The two power plants are the first cases that Shizen Energy has led business development, and juwi Shizen Energy has conducted construction and started commercial operations under the capital and business alliance agreement signed by Shizen Energy and Tokyo Gas on February 23, 2017. In addition, the operation and maintenance of both power plants will be managed by juwi Shizen Energy Operation Inc. (Representative Directors: Amane Sasaki, Jan Warzecha).

Shizen Energy has made the company's purpose to "take action for the blue planet." In doing so, Shizen Energy aims to spread the use of safe and sustainable energy through the global development of renewable energy power plants, in order for more people to live happily on Earth. Through the development, construction, operations, and maintenance of renewable energy power plants that are both high in quality, as well as rooted in the community, Shizen Energy will continue to accelerate towards the realization of a "100% renewable-powered planet."

■ About the power plants

Name of Facility	Shika Town Inotani Chosuichi Solar Power Plant
Output	2,589kW
Location	Shika Town, Hakui City, Ishikawa Prefecture
Start of Operation	December 2019

Name of Facility	Hakui City Shimbo Town Solar Power Plant
Output	2,746kW
Location	Shimbo Town, Hakui City, Ishikawa Prefecture
Start of Operation	December 2019

【About Shizen Energy Inc.】

Founded in June 2011 with the mission of “We take action for the blue planet.”, Shizen Energy group has contributed to the development of approximately 1 gigawatt (as of the end of December 2019) worth of renewable energy across Japan. It is engaged in all services required for the installation and operation of solar, wind, small hydroelectric, and other renewable energy power plants, such as development, EPC (engineering, procurement, construction), O&M (operation and maintenance), electricity retail market, and asset management. The company intends to construct photovoltaic power plants in countries around the world, beginning with the regions of Asia and South America. More specifically, in 2018, it launched the construction of such plants in Indonesia and Brazil.
